

Website Security Audit Report

Target: <https://smiu.edu.pk>

Date: 2026-05-09 16:31:18

Duration: 0:00:25.221438

Prepared by: Website Security Scanner - Kali Edition

Confidential - For Authorized Use Only

1. Executive Summary

A security assessment was conducted on <https://smiu.edu.pk>. The scan identified **4** issues across **4** pages.

Findings by Severity:

Severity	Count
High	1
Medium	2
Low	1

2. Vulnerability Details

1. Missing Security Header

Severity: High | **URL:** https://smiu.edu.pk | **Parameter:** N/A

Description: Missing CSP header

Remediation: Implement CSP to prevent XSS

2. Missing Security Header

Severity: Medium | **URL:** https://smiu.edu.pk | **Parameter:** N/A

Description: Missing HSTS header

Remediation: Add: Strict-Transport-Security: max-age=31536000

3. Missing Security Header

Severity: Medium | **URL:** https://smiu.edu.pk | **Parameter:** N/A

Description: Missing X-Content-Type-Options

Remediation: Add: X-Content-Type-Options: nosniff

4. Missing Security Header

Severity: Low | **URL:** https://smiu.edu.pk | **Parameter:** N/A

Description: Missing X-XSS-Protection

Remediation: Add: X-XSS-Protection: 1; mode=block

3. Recommendations

- 1. Input Validation:** Validate all user inputs using allow-lists.
- 2. Parameterized Queries:** Use prepared statements for all DB operations.
- 3. Content Security Policy:** Implement strict CSP headers.
- 4. HTTPS Enforcement:** Redirect all HTTP traffic to HTTPS.
- 5. Security Headers:** Add HSTS, X-Frame-Options, X-Content-Type-Options.
- 6. Regular Testing:** Schedule periodic security assessments.
- 7. WAF:** Consider a Web Application Firewall.
